

# Hurricane Joy!

---

2021 has already been a great year! The last week of January, Rina had her residency interview and was approved for 10 years! The following day, Danny received his social security number. Then I jumped on a plane and headed home for two weeks.

It was so refreshing to be home and to see Brayán and Heidi, the Ministry, our friends and family-my cat, and eat some really good chicken! I spent most of my time in MLV, getting it ready for classes starting Feb. 28.

Without advertising, MLV has had a steady stream of interest in classes. We have so many potential students that if it wasn't for COVID restrictions, this would be our best year! We are going to give classes to the students that enrolled in 2020 and were unable to attend when the lockdowns happened. It is really exciting to see the ministry get ready and dream about a new year.

The children's center in Agua Caliente is half way finished now! The last foundations are all dug and poured. Now they just need to raise the walls. The place looks amazing! Pastor Juan and I took some time to pray over the center and over the lives that will be changed there in the future.

After the hurricanes and some generous giving, Cocal has been able to help a family raise their house to prevent future flooding. I was able to arrive in Puerto Cortes, just in time for a very special moment. Check out the video to see the Surprise!!!

## 2021 MONTHLY PARTNERS!

COCAL GRACIAS is re-opening Ministerio La Voz to give in person classes. We are finishing the Children's Center construction this year, and we are seeing lives changed! Sound good to you? Become a partner!

Becoming a partner is as easy as signing up on Paypal to automatically debit your account or Credit card, or as hard as pledging an amount we can count on and writing a check each month!

Regular donations go to our general fund and support all the work we do by covering salaries and materials for operation. Thank you for your generosity.
